COMMENTS FROM THE TOWN MANAGER'S OFFICE

The walls and ceiling of the Community Room have been painted and new curtains will be put up at the windows. I guess this is the first work that has been done in the Community Room since the Jaycees painted it in 1961. The job probably should have been done quite a while ago but there was the possibility that the building would be razed this summer.

While on the subject of the town building, this might be the time to explain the status of the Fire Station Program. The Selectmen were requested to call a special town meeting the first of April to see if the town wanted to build a fire station on lower Main Street. No date was set for the meeting because the committee proposing the lower Main Street location wanted time to publicize its plan. The proposal brought very little favorable comment so a date was not set for a special town meeting.

Another proposal was made for construction of a multi-purpose building on the location of the present building. It would contain a fire station, community room and town offices. This proposal was quite well received by a lot of people but it still hasn't been correlated with the educational needs of the town and the financial demand that will be made by other projects.

STATEMENT OF GOULD TRUSTEES

After their Spring meeting held at the Bethel Inn on Monday, June 8, the Board of Trustees of Gould Academy issued the following statement:

For a number of years the Trustees of Gould Academy have been concerned with several problems affecting the future of Gould arising in large part from increasing student enrollments. As a result of crowded conditions, beginning with the academic year 1962-1963 the Academy was forced to limit day student enrollment to qualified students from School Union No. 22.

Enrollment pressures have continued to increase, and revision of standards of the State Dept. of Education relating to vocational offerings now threaten Gould with the possibility of loss of accreditation if it does not provide vocational training on a scale far broader than it is equipped to provide. At the same time the cost to the town of a Gould education has been steadily increasing and neither the local schools nor the Academy is able to qualify for substantial state aid benefits which might be available under other arrangements.

Members of the Board of Trustees have consulted informally with educators and others including members of the State Department of Education but no decisions have been made as to the future program at Gould. At its meeting this week the Board of Trustees concluded that its study of the problems involved should be continued and intensified in the course of its study the trustees of Gould hope to work closely with town and school committee officials to the end that a sound decision can be reached which will be in the best interests of Gould and the town of Bethel.

Mrs. Hugh Miller, Brownville Junction, is a guest at the home of her son in law and daughter, Mr. and Mrs. Walter Saunders and family Mrs. Saunders remains a patient at the Ramford Hospital.
